PROFESSIONAL SUMMARY

Information Technology undergraduate at SLIIT with knowledge of Java, Python, C++, web development, and database management. Interested in building practical software solutions and expanding technical skills through hands-on learning. Seeking an IT internship to apply academic knowledge and contribute to a development team.

PROJECT EXPERIENCE

AI Crypto Trading Bot | Personal Project

Python, Binance Testnet API | In Development

- Built the foundation of a Python-based cryptocurrency trading bot and successfully connected it to Binance Testnet.
- Configured the development environment and API client for testing without real funds.
- Planned further development of market analysis, automated trading, and AI-driven features.

Cloud Notes | Full-Stack Web Application

Java, Spring Boot, React, Vite, MySQL, JWT

- Developed a full-stack note-management application with user registration, login, JWT authentication, and protected routes.
- Implemented note creation and editing with a React frontend, Spring Boot backend, and MySQL database.
- Integrated AI-assistant functionality and organised the application into authentication, note-management, and AI-service components.

TECHNICAL SKILLS

- Programming Languages:** Java, Python, JavaScript, C++
- Frontend:** React, HTML, CSS, Vite | **Backend:** Spring Boot, REST APIs
- Databases:** MySQL, MongoDB | **Authentication:** JWT, User Authentication
- Tools:** Git, GitHub, Visual Studio Code, IntelliJ IDEA

EDUCATION

BSc (Hons) in Information Technology

Sri Lanka Institute of Information Technology (SLIIT)

2024 - Present | Undergraduate

- Relevant Coursework:** Object-Oriented Programming, Data Structures and Algorithms, Database Design and Development, Software Engineering, Web and Mobile Development.

GCE Advanced Level - Commerce Stream

2023 (Examination held in 2024)
